

Q-barLite

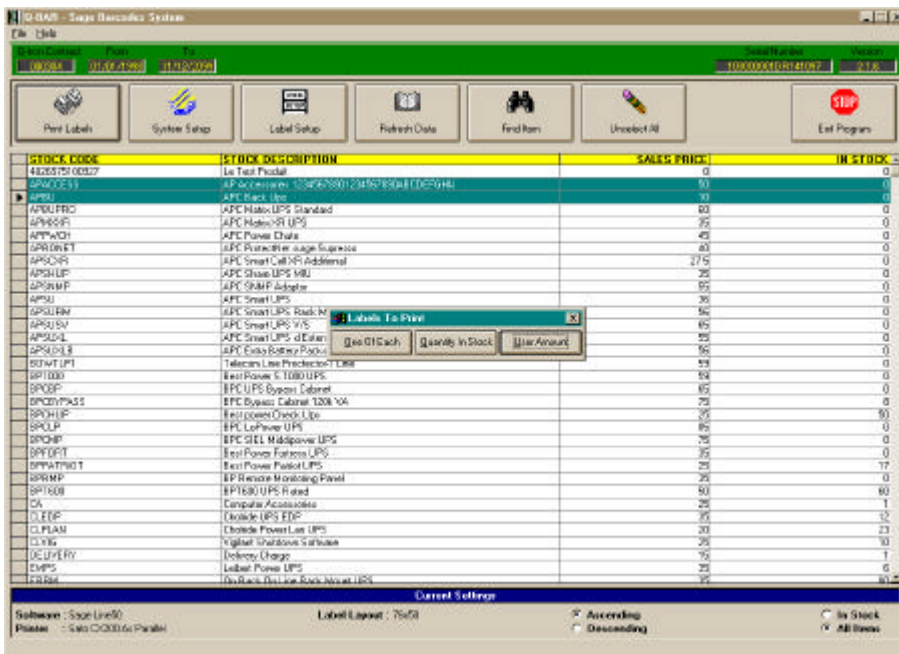

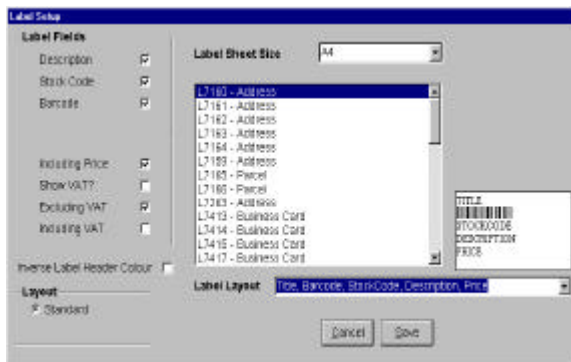

Bar Code Production for Sage Line 50 and 100.

Quick and easy Bar Code production Linking directly with Sage.

Q-barLite utilises standard laser or inkjet printers to produce a bar code label from Sage Line 50 Product or Line 100 Stock Codes.

The Windows based interface software displays all product codes, descriptions and sales prices along with the current quantity in stock.

Single or multiple items can be selected then, 'One Of Each', current 'Quantity In Stock' or 'User Defined' amount of labels can be printed. An item search facility enables fast selection of products. All current settings are displayed on the foot of the screen for easy reference.

Q-tron (UK) Ltd.

ABC123
THE ITEM DESCRIPTION

£1.23 inc VAT

Example Bar Code Label

Any of the label fields can be switched on or off and the price can be displayed either including or excluding VAT. All the Line 100 price levels can be selected.

The system supports the standard **AVERY** range of A4 laser labels.
